## Summary

Hi I am a Web Development Student at Bellevue University and I am in search of an Internship in Web Development. My training has been in the MEAN Stack though I have experience in the MERN Stack as well.

## Experience

### Web Developer Volunteer

Villari's Martial Arts Studio

Nov 2020 - Present (2 months +)

- Worked on an application for the Belt Black Course Instructors.
- The database used was MongoDB.
- Backend framework used was Express.js.
- Angular 10 was used as the Frontend Framework.
- Node.js was used as the runtime environment.
- This was a Full Stack Project meaning I did work on both the Server and the Client.

### Web Developer Student

Bob's Computer Repair Shop

Oct 2020 - Nov 2020 (2 months)

- Worked on a team of three to produce the application for a fictional character.
- This project used MongoDB as the Database as well as Express.js and Node.js for the Backend.
- This project used Angular 10 as the frontend framework.
- Github and Heroku were used for this project for a Code Repository and Hosting.
